### **Preamble: The primary purpose to get compatibility Analysis**

You have ordered this report in order to assess the marriage and relationship compatibility with your partner.

## **Ascendant Compatibility**

### **To Judge Personality, Nature & Interaction Between Partners**

Ascendant is the most unique signature in our horoscope. Ascendant (Janma Lagna) in our chart signifies the way we shall express our body, mind and soul to the world at large in this life. Ascendant compatibility will give important clues to our personality and nature. It also gives us important clues to our personality and nature and the way we shall interact with our partner in our life together.

#### **❖ Ascendant Analysis**

Your Ascendant is Capricorn which is ruled by Saturn. This is also a cardinal sign but with earth element. As sign number 10, it shows the state of power, order and complete organization. Capricorn is often the lowest and the highest of signs in terms of achievement in life. It is the sign of practical realization and usually Capricorn person are very practical and pragmatic and are not emotional or very sensitive. On the material level, this can create much worldliness and obstinacy and make the person selfish. You will be hardworking, persevering and tenacious, and have the power of eventual great accomplishments. You may start slowly in life often encounter many obstacles along the way, but thereby create the energy for long term success. What is true for life, the same will be true in relationship. The life together may not start with great love and passion, but eventually you can build a strong emotional bonding with your life partner.

Because you have to work for yourself and learn to value everything that will come through your own effort and experience. You do not start with great expectation in life together, but if your partner is patient and sensitive to your nature eventually both of you will be able to build a strong emotional bonding which will then sustain the life together.

### ❖ **Ascendant Analysis**

Your Ascendant is Libra which is ruled by Venus. Libra is a cardinal sign with Air element. As sign number 7, it gives you leadership, power and command of ideas. You are attractive and have a charisma that attracts others. As a Libran person, you are unlikely to be much concerned with home and family nor would you hold much value about sanctity of the institution of marriage and loyalty to your partner. However, you would like to have beauty or the companionship of the opposite sex surrounding you. Librans basically would like to be free like a bird navigating through the entire sky and would not like to be caged in domesticity or a completely monogamous relationship with life partner in life together. With your sociable nature, you will be successful and would like to make a mark in the world. Yet you can lose your bearings when it will come to maintaining the sanctity and integrity in life together. Though for you, it may not be serious enough or it may be totally insignificant, but your partner may not perceive it in the same way.

### ❖ **Interaction between Ascendants of both of you**

You relate to each other formally like “The diplomat and the president” yours is a very ‘correct’ pairing that does not allow much room for the highly passionate or free-and –easy. Because of this conventional style you both are able to build and fashion a respectable life together. But if there are any signs of dissatisfaction on either side, then it’s time to be more emotionally aware and outspoken.

# **The Dialectics Of Relationship Between Two of You**

## **For XYZ:**

### **Leanings**

**Responsibility**-Without a serious purpose to your relationship, which must be observed and adhered to, it would not exist at all. This can mean that the relationship has responsibility as an inherent part of it, or that that is precisely what is imposed upon you in order that you may learn from it.

**Tradition**-You are inclined as a couple to follow a quite conventional route in your relationship – namely marriage, officially or unofficially. But whether you remain together because you want to or have to is another matter, as too is how it appears on the outside not necessarily concurring with how you are in private.

**Regulation**-An order and pattern to your life is something that seems to get installed one way or another. Possibly you are in a business together which dictates this. Whether it is that, or running home and family, you make it into a businesslike affair with routines, economy etc.

### **Advantages**

**Dutifulness**-Because you conduct your relationship in such a responsible manner, you come to rely upon one another more and more as time goes by. And with time come trust and the learning of valuable lessons, which enable you to build your relationship into something lasting.

**Objectivity**-You are not a pair to let emotions get the better of you to a point where you overlook the practical realities of your relationship and the context in which it exists. Whether it is a family, a business or anything else you are jointly responsible for, you both see what has to be done, and do it.

**Constructively**-Being practical and aware of material issues- or at least when the relationship has made you so- you set about ensuring that you and yours amount to something in the world at large. Professional plans and activities (should) come high up on your list of priorities.

### **Weaknesses**

**Coldness**-Not surprisingly, a disadvantage of the above described practicality and objectivity is that your respective inner feelings get overlooked or suppressed. In time, this could find you seriously out of touch with the very feelings that endeared you to one another in the first place.

**Rigidity**-Whatever pattern or order you have devised, possibly over years, to create stability and security, could devolve into tramlines that you have to keep to day in day out. If this has made your relationship stale and turned it into a meaningless drudge, then consciously introduce some change and flexibility.

**Austerity**-Economy is one thing, but denial is another. An almost Dickensian set of values can creep up on you both, causing you, either emotionally or materially, to be mean with yourselves, and possibly others too.

This would reflect the degree to which the love and soul had drained from your relationship owing to that coldness and a need to control.

### **For ABC:**

#### **Leanings**

**Harmony-** 'Don't let the Sun go down on your wrath' could be a very apt motto for you as a couple. Striving for a pleasant and peaceful atmosphere is vital to your well being as a relationship. As such, this Theme is the most effective for maintaining a positive partnership.

**Justice-** Having a sound sense of what is right and wrong with regard to one person's behavior towards another is a paramount importance to you both. It is as if you are innately aware that there is such a thing as 'establishing right relations' and you strive morally to achieve this.

**Art-** Life without Art is for you two a life, which is not worth living. So in your daily lives together it is imperative that you have beauty and elegance around you for most of the time, especially where you live. If you don't already, pursue some form of artistic practice or appreciation.

#### **Advantages**

**Consideration-** You take time out to weigh the pros and cons, the best way of going about relating to one another. You also have the sensibility to take into consideration the emotional, and social positions of those around you with a view to alleviating or improving their situation.

**Aesthetics-** you have an awareness of how to please others as well as each other. The look, taste, smells, sound and feel of things is

something, which you deem highly desirable and significant. You use music and fine food to good effect, to entertain or simply live amidst.

**Sociability-** You should be quite popular as a couple for you grace your social environment to one degree or another. Most significantly, it is the fact that you are, or at least appear to be, an item in the accepted sense of the term. A harmonious couple creates harmony around it.

### **Weaknesses**

**Indecisiveness-** Being merely a social response to your social environment finds you lacking in the direction and principles needed to determine what you want to do or be as a couple is its own right. Choosing an objective and progressively striving towards it is the answer.

**Timidity-** Because of your joint need to be liked, appreciated, understood or approved of, you can lack the identity as a pair that is spirited and sure enough of its own integrity not to be manipulated or compromised by one or more other people. Forge your own strengths.

**Superficiality-** If you find your lives together getting meaningless, or that you are a couple in name only, then it is because you have settled for a semblance of compatibility, for being in a relationship for fear of being alone. Dig beneath each other's surface for the gold.

## **Moon-Sign Compatibility**

### **To judge mental compatibility between partners**

Moon in our horoscope shows our general propensity for relationship and how we will interact with our partner in life together. The moon gives us sensitivity of human feeling, a strong social consciousness, and a need to exchange emotions. It makes us require that our feelings are recognized in life and shared by others.

#### **XYZ's Moon-sign:**

XYZ's Moon-sign is Cancer which is ruled by Moon and Moon is considered as a natural benefic and an unproductive planet.

#### **ABC's Moon-Sign:**

ABC's Moon-sign is Leo which is ruled by Sun. It is considered as a powerful and cruel planet in your horoscope.

### ❖ **Interaction between Moon Signs of both of you**

You relate to each other dramatically like “The matriarch and the monarch”. Leo partner gives a sparkle to Cancer’s security- oriented and possibly limited lifestyle; Cancerian partner provides as sense of family and belonging. Unless this exchange is appreciated, Leo partner will soon feel suffocated by such ‘familiarity’, and the Crab can come to resent and feel threatened by the Lion’s love of excitement.

## **Ashtakoot analysis from different aspects of relationship** **(8 fold tests)**

The horoscope matching that is done in traditional Vedic astrology is essentially based on the compatibility between Moon-signs in the respective charts of the couple. This is called "Kundali Milapak" report between the two charts.

Kundali Milapak is a unique and ancient 8-fold test of horoscope matching between a man and woman's charts for marriage. This ancient technique of Vedic Astrology was formulated about 3,000 years ago and compares various aspects of the natal chart taking the Moon sign in the chart as the primary factor.

The Natal Charts of the man and woman are drawn and comparatively tested in eight different ways. Each test has a score. While the maximum points that can be achieved under each test are different, the 8-fold test can yield a maximum score of 36 points. A score of 16 is deemed to be the minimum for a reasonable match. Marriages are not recommended for a result below 16

### **Modern Relevance**

Since these tests were formulated 3,000 years ago and based on the social norms and the role of marriage in the ancient society, we have also made this ancient test applicable to the new millennium by pointing out the basis of how the tests were scored, so that you can apply your own judgment of how important a particular aspect is in your personal relationship.

Although the techniques and the basis of this comparison originated in ancient times, the analysis has not lost its relevance today. This analysis brings out the difference in personality and nature between two people in a quantitative and more precise manner than any other astrological tool. It proves to be very accurate and relevant even today in gauging compatibility and the areas of strengths and weakness in a relationship.

### **The Scoring System**

In presenting you this analysis, we have maintained the integrity of ancient principles in the scoring system and the weightage given to various aspects. However, we want you to understand the principles behind it completely, so that you can understand the various aspects of your relationship in which you are completely compatible and where the problem areas may lie so that you are able to work on it.

In ancient times, the fundamental purpose of marriage was to carry on the lineage in a manner that increased the material and spiritual prosperity of the couple within the norms of social behaviors in that time. It is also to be understood that Women had been relegated to a subordinate or inferior role in the Man/Woman Relationship. The role of the woman, be it the Queen or the wife of an ordinary man in society, was at home and the primary responsibility was to look after the comforts of the husband, take care of the children as well as his parents and his entire family.

The system by which this test assigns scores is that when and if in a relationship, the horoscope chart of a woman rates higher and is superior in intellectual, mental or physical powers than the chart of the man's, then the test will fail and there will be a low score or a zero score. The highest score is also given in this test in a woman's ability to be a mother.

We encourage you to study this test very closely for its ability to point out the difference in personality and ego between two different people and their strengths and weakness in maintaining a nurturing, caring and growing relationship over time.

**I will advice both of you to go through this report very carefully and understand the significance of each of the 8 tests of compatibility and also the significance of the score obtained by each of the 8 tests.**

## ❖ Kundali Milapak Test

### **The First Test: Mental Compatibility (*Varna*)**

This test has a maximum value of 1 point and shows the basic potential of a person and the person's inherent skills and abilities. This also includes the personal egos of the partners and compatibility between their egos. A partnership in which the woman has higher intellectual and spiritual qualities will score low in this test.

For purposes of this test, personalities are divided into four classes to indicate potential and inherent abilities. They are as follows:

**Brahmin or Priests** - They are the intellectuals and philosophers. Their role in society is that of a Guru or a teacher. They were traditionally spiritual leaders and were not expected to perform physical labor. Society looked up to them and looked after them. They have a high development of spiritual and mental ability.

**Kshatriya or Warriors** - They form the leaders and the ruling class who are powerful people and master of strategy and battle. They were traditionally the Kings and protectors of society. They are considered very courageous and are decisive in their actions.

**Vaishya or Merchants/Business people** - They belong to the professional or business class of people who perform all the useful and economic functions of society. They are skilled in different crafts and professions, signifying tremendous abilities.

**Shudra or Laborers/Service people** - They belong to the normal hard-working class who had a tremendous sense of service to society. Majority of the work in society fell upon them; hence they also have an inherent sense of responsibility.

|----------------------|---|
| Maximum Point        | 1 |
| Minimum Point        | 0 |
| Actual Points Scored | 1 |

XYZ belongs to the **Brahmin** Varna

ABC belongs to the **Kshatriya** Varna

**Prediction** - XYZ K is of Brahmin Varna. XYZ K is endowed with intelligence and a well-developed mental faculty. On the other hand, ABC is of Kshatriya Varna. ABC is courageous, tenacious and has decisive skills. ABC will have complete regard and respect for him. This situation will strengthen and enhance their relationship. Hence, there will be an excellent mental compatibility between them.

### The Second Test: Power compatibility (*Vasya*)

This test has a maximum value of 2 points and shows the power equation between the partners. It also reflects who will be the more dominant partner in the relationship.

For the purposes of this test, Vedic principles again divide personalities into 5 different categories reflecting the difference in power status. These are classified by symbol of different living creatures. The test scores the compatibility between these classifications and the inherent or natural

balance of power. Once again, if a woman has a higher power status, the score will be low. The classifications are as follows:

**Manav or Human** –Humans are normally individualistic, they like to have control, have their own opinions and the power to discriminate.

**Vanchar or Creature of the Jungle** – Jungle creatures that are powerful and those that are higher in the food chain like Tigers, and Lions, etc. fall into this category.

**Chatuspad or Four-Legged Creature** – Animals that are less powerful like deer and goat and sheep fall in this category.

**Jalchar or Creature of Water** — Once again they have their own power and their own sphere of influence.

**Keet or Insect** — They are essential to any ecological balance and exert a quiet power that is essential for survival. Thus, they have their own strengths and area of influence.

### Weightage

They may also try to exert their individual supremacy. Therefore, this test indicates average results.

### **The Third Test: Birth Star Compatibility (*Tara*)**

This test has a maximum value of 3 points and indicates the health, well-being and longevity of the partners after marriage. This test reflects if marriage is favorable or unfavorable in promoting longevity and health of each partner.

For purposes of this test, the inter-relationship of the birth stars (*Tara*) are looked at and compared. Vedic Astrology rates the inter-relationship as being naturally auspicious or inauspicious. This test rates the relationship of the birth stars as reflected in each partner's natal chart. There are 9 categories of birth stars—Janama, Sampat, Vipata, Kshema, Pratyari, Sadhaka, Vadha, Mitra and Ati-mitra. The counting is done from Her Birth Star to that of His and from His Birth Star to that of Her's. If by dividing each of them by the other, the remainder comes to 3, 5, 7 then the *Tara* is inauspicious. If the remainder comes to 1, 2, 4, 6 8, 0 then it is auspicious. The points are determined according to the auspicious and inauspicious Birth Stars of both the partners.

The minimum score of 0 is obtained in this test when the Yoni. or the animal characteristics personified, of Man and Woman are natural enemies. ### The Fifth Test: Planetary Harmony (*Grahamaitri*)

It also shows one's outlook, objective, and intellectual level as well as spiritual plane of existence. It reflects the fundamental difference in daily behavior, attitude and norm by which the man and woman relate to each other. For the purposes of this test, the relationship between the different planetary lords of the Moon Sign in each partner's natal chart is compared. ### **The Sixth Test: Compatibility of nature (*Gana*)**

This test has a maximum value of 6 and shows the nature of the two different individuals at a mundane level, and indicates the compatibility of

temperament and mutual daily behavior, for happiness and prosperity in their lives.

For purposes of this test, by categorizing persons into 3 separate classes, the inherent spiritual and materialistic values of the two persons are compared and rated for compatibility. Once again, if the woman were to score higher points spiritually, the scores will be low.

They are as follows:

**Devata or Godly** –This represents a person who is more spiritual than materialistic.

**Manushya or Mortal** – This indicates a person who has an even balance between the spiritual and the materialistic.

**Rakshasa or Demon** – This represents a person who is more materialistic than spiritual

This is an important test with high values. The maximum point of 6 is obtained when both partners belong to the same 'Gana'. This signifies an identical outlook towards life. The scores in this test can be 6, 5, 1 or 0. The minimum score of 0 is obtained when either partner belongs to a "Demon" category. However, if both were to belong to the Demon category, the score would be high. Marriage or a long-term relationship between inimical Ganas brings quarrels, disharmony, separation and divorce.

This test has a maximum value of 7 and is a crucial test to check overall prosperity in the growth of family, family welfare and economic prosperity after marriage.

For purposes of this test, the compatibility between the Zodiac Moon Signs are compared by checking the angles created by these signs in the two different charts.

The Moon Signs are as follows:

***Kanya or Virgo***

### **The Eighth Test: Compatibility between Life forces (*Nadi*)**

This test that has the highest value of 8 shows the pulse and nervous energy indicating the physiological and heredity factor. This test also measures the genetic compatibility between the couple to produce healthy progeny after marriage.

Please consider that in ancient Vedic times, the main purpose of marriage was to produce healthy children and to continue the family lineage. In this age of modern science and technology, where the most advanced medical facilities are available, this score should be considered in light of this factor. In addition, in those relationships where birth of children is not required, this score can be completely discarded from the overall points and the points scored.

For purposes of this test, life forces are categorized as follows:

**Adi or Beginning**

**Madhya or Middle**

**Aanta or End**

## **The Mars compatibility OR Kujadosha Analysis between two charts**

Mangalik chart and Non Mangalik chart is a term most familiar in India. It is also called "Kujadosha" between the charts.

Kujadosha or Mars affliction is an astrological condition which negatively affects a person's married life and domestic harmony. It occurs when Mars is in the 1<sup>st</sup>, 4<sup>th</sup>, 7<sup>th</sup>, 8<sup>th</sup> or 12<sup>th</sup> house, unless it is posited in a sign designated as an exception for that particular house.

These exceptions are as follows:

*Mars in first house, unless posited in Aries. Mars in the 4<sup>th</sup> house, unless posited in Scorpio. Mars in 7<sup>th</sup> house, unless posited in Capricorn or Pisces. Mars in 8<sup>th</sup> house, unless posited in Cancer. Mars in 12<sup>th</sup> house, unless posited in Sagittarius.*

For a detail analysis, position of Mars must be checked in the same manner not only in Natal (Lagna) chart, but also in Moon-Sign (Rashi) chart and also in Navamsa ( 9<sup>th</sup> harmonic chart).

The effect of Kujadosha is to cause a person to be somewhat victimized in his/her marriage. This can of course occurs in any number of ways, but ultimately one is likely to end up divorced and generally through no obvious fault of one's own. The person will also have to endure hardships in the marriage generated by the spouse.

The way out of this problem is for a person with Kujadosha to marry another who also has it. A person with Kujadosha does not have the nature to victimize his spouse, and therefore if both partners have the condition, it's effect is neutralized. This is the usual procedure in cases of arranged marriage in India where horoscopes of the couple are matched before the go ahead is taken.

However, the problem does not really get fully solved, even if this precautions are taken while deciding about a bride/ groom.

The mechanics of Kujadosha are such that it causes a person to be attracted to a partner who by his/her very nature cannot blend or function compatibly for any great length of time with that person who does not have Kujadosha in his/her chart. Therefore one is quite simply at the mercy of his/her fate and the marriage may eventually come to an end.

However the most significant problem is a person with Kujadosha will not feel much physical attraction or any special chemistry for another who also has Kujadosha in his/her chart. In such cases the marriage may be saved but excitement and passion may soon vanish within a few years of Life Together.

## **Final recommendation & address of primary concern for compatibility**

There are planetary afflictions in both of your horoscopes and this may create conjugal squabble. Thus, it is necessary to neutralize negative planetary afflictions in your horoscopes.

Hence, I suggest you to make some positive changes in your behavioral patterns. You should try to maintain balanced attitude and behaviour with your life partner after marriage. Astrological remedies will help you to neutralize negative planetary afflictions in your horoscope. You need to maintain conjugal parity with each other by adjusting yourself as conjugal life is all about adjustment and accommodation.

Summarily, I suggest that you can go ahead with the proposal, keeping in mind that this does not mean you will have a totally tension free and happy life. The malefic transits of planets in the individual horoscopes, and the Dashas that come from time to time, will also play a role in your marriage, but you will have the strength to fight it all, together.
